

The image features a dark, textured background with a leather-like pattern. A large, flowing, golden liquid stream curves down the right side, with a single drop falling from it. The word 'ROVEX' is written in a large, bold, golden, 3D-style font, with a drop of oil integrated into the letter 'O'. Below it, the word 'LUBRICANTS' is written in a smaller, golden, sans-serif font, flanked by horizontal lines.

SOLUTION FOR EVERY ENGINE. POWER FOR EVERY JOURNEY

ROVEX SYNTHETIC SP/ILSAC GF-6 is an advanced full synthetic motor oil designed to help deliver outstanding engine protection and enhanced fuel economy benefits to keep your engine running like new and protect critical engine parts which meets or exceeds the requirements of the industry's toughest standards and outperforms our conventional and synthetic blend oils.

ROVEX MOTOR OIL is formulated with highly refined base oils and advanced additive packages. It meets the required performance standards of latest gasoline engines, turbo charged and naturally aspirated.

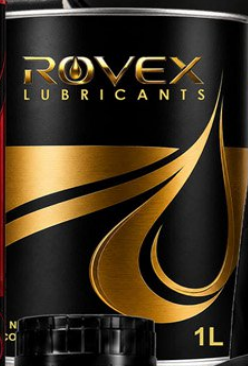

ROVEX ATF D III is Automatic Transmission Fluid formulated from high quality solvent refined mineral base oils and additive package to provide anti-wear, corrosion resistant and thermal stability. The additive package ensures consistent and smooth shifts in all driving conditions.

ROVEX SAE 0W-20 Premium Synthetic Engine Oil is formulated with advanced synthetic base oils to satisfy the requirements of API SP. It provides an excellent combination of low-temperature fluidity, reduced friction, and high-temperature film strength — making it the ideal choice for a wide range of modern OEM

# PRODUCT RANGE

SOLUTION FOR EVERY ENGINE. POWER FOR EVERY JOURNEY

**ROVEX SAE 15W-40 Heavy Duty Diesel Engine Oil (HDEO)** is an advanced multi-grade lubricant meeting API CK-4 and API SN performance standards. Formulated with quality base oils and a comprehensive additive package, it delivers superior protection for modern and legacy heavy-duty diesel engines.

**ROVEX SAE 50 Monograde Diesel Engine Oil** is a premium mineral-based lubricant formulated to meet API CF-4 and API CF performance requirements. Engineered for diesel engines operating at sustained high loads and elevated temperatures, it delivers strong alkaline reserve to neutralise combustion acids and maintain effective lubrication over extended service periods.

**ROVEX HYD 10W ISO VG 32** is a premium anti-wear hydraulic oil formulated with high-quality mineral base oils and a zinc-based (ZDDP) additive system. Classified to ISO 6743-4 HM, it is engineered to maintain hydraulic system performance and component integrity in industrial and mobile hydraulic equipment operating with low-viscosity fluid requirements.

**ROVEX Hydraulic Oil 68** is a high-quality hydraulic fluid specially formulated to provide smooth power transmission, excellent wear protection, and reliable performance in heavy-duty hydraulic systems. It helps reduce friction, protects hydraulic pumps and components.

SOLUTION FOR EVERY ENGINE. POWER FOR EVERY JOURNEY

ROVEXGEAR OIL are designed and manufactured from selected premium quality base oils and additive packages to provide excellent protection for heavy duty manual transmissions in equipment and vehicles. These oils are high performance, multi-purpose, thermally stable, extreme pressure automotive hypoid gear oils.

ROVEX SAE 5W-30 Fully Synthetic Engine Oil is engineered to satisfy the requirements of API SP, the latest performance standard for petrol engine lubricants. Formulated with premium synthetic base stocks, it delivers all-season protection, outstanding engine cleanliness, for a broad range of modern passenger car engines.

ROVEX SAE 20W-50 is a premium multi-grade engine oil formulated with selected base oils and a high-performance additive system. Designed to meet the demands of petrol and light-duty diesel engines in high-temperature operating environments, it delivers consistent lubrication across a wide range of engine conditions.

ROVEX SAE 5W-40 is a fully synthetic motor oil meeting the requirements of API SP and API CF, making it suitable for both modern petrol and light-duty diesel engines. Its robust synthetic formulation withstands severe thermal stress generated by turbocharged and high-performance engines
